Bright

Whole House Water Filtration

Enjoy Crystal Clear Water in Every Tap!

Health

Pure, safe water for drinking, cooking, and everyday living.

Beauty

Cleaner water for glowing skin and softer hair with every shower.

Home

Protects appliances, pipes, and taps from scale buildup.

At Bright Water Filtration, we believe that every family deserves access to pure, safe, and great-tasting water. We specialise in providing premium whole-house and under-sink filtration systems that remove impurities, protect your health, and improve your everyday lifestyle.

The Benefits of Pure Water

Healthier Water

Removes chlorine, heavy metals, and other impurities.

Better Taste & Smell

Enjoy fresh, clean water straight from every tap.

Gentle on Skin & Hair

Reduces dryness and irritation caused by chemicals.

Anti-Aging Benefits

It helps maintain natural moisture, prevents dryness, and slows visible signs of aging.

Appliance Protection

Prevents mineral buildup in pipes, heaters, and appliances.

Eco-Friendly

Reduces plastic waste and promotes sustainable living.

A Reliable Name in Water Quality Solutions

WHOLE HOUSE WATER FILTRATION SYSTEM COMPONENT DETAILS

Sediment Filter – Stage 1

- Utilises advanced 3-layer filtration technology to ensure optimal water flow.
- Provides filtration accuracy of up to **1 micron**.
- Manufactured from food-grade materials for enhanced safety.
- Includes a lifetime free supply, delivering long-term cost savings for customers.

Premium Carbon Filter for Heavy Metal Reduction & Improved Water Taste

- Contains premium natural coconut shell carbon for superior taste and extended filter life.
- Designed to provide a lifespan of up to 18 months under normal usage conditions.
- Utilises KDF 85 for enhanced anti-bacterial protection.
- Incorporates KDF 55 media to effectively reduce heavy metals from water.

High-Performance Carbon Filter Limescale Control & Enhanced Flavor

- **Next-Gen Limescale Defense:** More efficient than standard filters.
- **Crystal Clear 1-Micron Filtration:** Captures even the smallest impurities.
- **18 Months of Pure Water:** Built for durability and fewer replacements.
- **Eco-Friendly Taste Boost:** Natural coconut carbon for a fresher, cleaner sip.

Brass Connector

- Strong, heavy-duty design for reliable high-pressure performance.
- More durable than plastic connectors and resistant to cracking.
- Anti-corrosion properties help prevent secondary contamination.

20-inch x 4.5-inch full-size housing for maximum filtration

- Increased water contact surface for improved filtration performance.
- Extended filter lifespan for greater cost efficiency.
- Made from food-grade materials for safe water filtration.
- Standard fittings allow flexibility to choose your preferred filter supplier.

Stainless Steel and Glass Pressure Gauge

- Built for long-lasting durability.
- Features UV protection and anti-corrosion design.

Double O-Ring Seal

- Precision-engineered to prevent leaks.
- Dual-layer sealing for added protection.
- Provides extra security against malfunctions and water leakage.

Stainless Steel Frame

- Designed to stay strong and prevent damage to pipes when changing the filter.
- Provides superior strength and durability compared to all-plastic frames.
- Built tough for long-lasting, reliable performance.

Fully Stainless Steel Cover

- Protects gauges from potential damage.
- Built-in space for filter change tools for easy access and organisation.
- Durable and long-lasting.
- UV protection.
- Anti-corrosion for extended lifespan.
- Sleek, modern design for improved aesthetics.

74cm (H) x 59cm (W) x 21cm (D)

Tool-Free Clip Cover

- Tool-Free Installation – Just press the clip, no screws needed.
- Time-Saving – Quick hold-and-press setup.
- Rust-Free – Eliminates risk from screws.

Back Cover

- Perfect for ground mounting
- Fully protects the housing system.
- No extra cost.

Flexible Installation Scenarios

Designed for total adaptability, our systems ensure a seamless, secure fit for any property. From brick exteriors to unique structural layouts, we provide professional, tailored filtration setups for every home environment.

Filter Change Schedule And Technical Data

Filter Change	Stage 1	Stage 2	Stage 3
Max	18 Months	18 Months	18 Months
Recommended	12 Months	12 Months	12 Months

Technical Data

Model	FHWR-3SI-20 74cm (H) x 59cm (W) x 21cm (D)		
Description	Full Home Water Refining System		
Water pressure	0.1-0.6MPa	IRON	Maximum 0.2ppm
Water temperature*	5°C-35°C	TDS	<1800 ppm
Total Net Water	300,000L	Operating Flow Rates	50-60 L/min

The contaminant reduction and performance results shown above are based on laboratory testing using specific water samples from different sources. Actual results may vary depending on the quality of the incoming water and testing conditions. This chart is provided for reference only.
